

## CHARLOTTETOWN HOME PRICES REMAIN FLAT IN THE THIRD QUARTER OF 2014

*Strong inventory levels and competition among sellers keep prices stable*

**CHARLOTTETOWN, October 15, 2014** – The Royal LePage House Price Survey released today showed no change in prices year-over-year across all housing types surveyed in Charlottetown.

The average prices of all three housing types; detached bungalows, standard two-storey homes and standard condominiums, were unchanged year-over-year, remaining at \$173,000, \$205,000, and \$128,000 respectively.

“Inventory of all three housing types has remained strong,” explained Ken Peters, Broker and Owner of Royal LePage Peters and Lanks Realty. “Although overall, we’re seeing similar activity levels in the market as a year ago, competition among sellers to attract qualified buyers has kept prices in check.”

“We are beginning to see signs of the market starting to pick up,” added Peters. “While the summer was a little slow, we’re optimistic for a strong fall season.”

Nationally, the average price of a home in Canada rose between 4.4 per cent and 6.1 per cent year-over-year in the third quarter of 2014. According to Royal LePage, the average price of a standard two-storey home rose 5.5 per cent to \$441,714, while detached bungalows increased 6.1 per cent to \$405,101. Condominiums on average showed slightly lower year-over-year gains, posting a 4.4. per cent increase to \$257,377.

“In the seven years since the Canadian housing market began its recovery from the worldwide recession, home price growth has been robust, often greater than the long-term average of approximately five per cent,” said Phil Soper, president and chief executive of Royal LePage. “We are now experiencing a natural slowing in the rate of year-over-year price appreciation, with real estate markets moderating in most parts of the country, a transition to what our agents refer to as a ‘Goldilocks market,’ one that is neither too hot, nor too cold. To be clear, we

expect home prices to continue to grow in the months ahead, but at a slower rate than we have seen in recent years.”

### **About the Royal LePage House Price Survey**

The Royal LePage House Price Survey is the largest, most comprehensive study of its kind in Canada, with information on seven types of housing in over 250 neighbourhoods from coast to coast. This release references an abbreviated version of the survey which highlights house price trends for the three most common types of housing in Canada in 90 communities across the country. A complete database of past and present surveys is available on the Royal LePage website at [www.royallepage.ca](http://www.royallepage.ca). Current figures will be updated following the complete tabulation of the data for the third quarter of 2014. A printable version of the third quarter 2014 survey will be available online on November 12, 2014. Housing values in the Royal LePage House Price Survey are Royal LePage opinions of fair market value in each location, based on local data and market knowledge provided by Royal LePage residential real estate experts.

### **About Royal LePage**
